

REPORT (ENGLISH)

Cáceres 2031 Cultural Activation Office launches Extremadura's first Cultural Creation Guide

Key highlights

- The **Cultural Activation Office (OAC)** has launched the development of the **first Cultural Creation Guide of Extremadura**, designed to map and promote the region's cultural infrastructure and creative resources.
- The guide includes **creative spaces, rehearsal rooms, recording studios, audiovisual facilities, cultural centres, workshops and other cultural venues**, making them more accessible to artists, cultural organisations and creative professionals.
- Its main objective is to **strengthen Extremadura's cultural ecosystem** by improving collaboration, increasing the visibility of existing resources and encouraging new cultural and artistic projects.
- The initiative forms part of the **long-term legacy of the Cáceres 2031 bid**, reinforcing the Cultural Activation Office as a permanent support structure for the cultural sector beyond the European Capital of Culture selection process.
- During its first two months of operation, the Office has provided guidance to **almost fifty cultural professionals and organisations**, offering support on project development, funding opportunities, event production, communication, public procurement and professionalisation.
- The project demonstrates Cáceres 2031's commitment to **delivering tangible and lasting benefits** for the cultural sector while building the foundations of its European Capital of Culture legacy.
